Listed herein are over 100 major conventions, exhibitions, trade and industrial shows being held in the United States in 1970. These meetings are sponsored by U.S. professional and trade associations.

The associations listed answered a United States Travel Service questionnaire in which respondents indicated they welcomed attendance from abroad at their meetings. Many are offering special services and inducements to the foreign visitor.

This directory is intended as a guide; it is not a complete listing of the hundreds of U.S. conventions and exhibitions that are held annually. A detailed listing of U.S. conventions ("Directory of Conventions") and an annual directory of all trade shows ("Exhibits Schedule") can be purchased $20.00 for the Directory; and $35.00 for Exhibits from the publication Sales Meetings, 1212 Chestnut Street, Philadelphia, Pennsylvania 19107, USA.

In the booklet "United States Conventions and Exhibitions", each event is listed alphabetically by its industry, business or profession classification. For page listing, consult the "Index to Classifications" which follows, as many shows overlap functions (e.g. Engineering and Electronics). Following the index and beginning on page 5 you may wish to refer to the "Chronological List of Shows" in 1970 (events listed by their scheduled dates).

Further information and details on specific conventions or shows can be obtained from the "contact" addresses appearing under each heading.

For the business traveler to the U.S., ask your travel specialist for a copy of the USTS folder "Businessman's Guide" (available in several languages).
